APEX™
Take control of your warewashing process

Control your costs and environmental impact through optimized efficiency
TAKE CONTROL OF YOUR WAREWASHING PROCESS

Spend less time and money washing dishes with Apex™

You’ve always counted on Ecolab for high-performance, one-pass warewashing. With Apex™, Ecolab takes it to the next level, delivering a state-of-the-art way to control your procedures, help minimize total warewashing costs and reduce your environmental impact.

TOTAL COST OF WAREWASHING

Apex™ helps you control all the costs that go into warewashing. Total cost per rack: $0.50
The Next Generation of Warewashing is Here

Control and Minimize Total Costs

- Estimates of total cost to run dishmachine, based on number of racks.
- Savings generated for all services performed.
- Recommendations provided to further minimize total costs.

Control Efficiency with Ecolab Service

- Regular service calls proactively keep your system operating at its peak.
- Personalized consultation solves procedural challenges before they become problems.
- Experienced representative trains employees to streamline procedures and lower your total warewashing costs.

Outstanding Results

- One-pass warewashing.
- Unsurpassed stain removal.
- Patented technology protects glassware from filming.

Advanced State-of-the-Art System

- Custom-shaped, color-coded products and dispensers provide language-free loading.
- State-of-the-art dispensing alerts operator when to add product.
- LCD controller alerts out-of-product, improper rinse temperature and when to change wash tank.
OF WAREWASHING IS HERE

CONTROL YOUR ENVIRONMENTAL IMPACT

- Reducing rack counts lowers water and energy consumption.
- Less packaging equals less waste.
- Service and recommendations improve efficiencies to keep utility and product usage to a minimum.

SAFER FOR EMPLOYEES

- Non-caustic, solid products are safer to touch.
- Compact, solid formulations eliminate the need to lug and lift heavy buckets.

Apex brings you a full system of breakthrough products, specially formulated to work together to deliver unsurpassed cleaning results and control your costs.

DISHMACHINE DETERGENTS

- Patented technology provides superior cleaning power, etch protection and film prevention. Eliminates bleaching of coffee cups or glassware.

RINSE ADDITIVES

- Deliver solid convenience and spot-free results in formulas created for different water conditions.

PRESOAK

- Unique combination of alkalinity and surfactants loosens soils and emulsifies grease. Patented dual-enzyme formula removes tough, dried or baked-on protein and starch soils.

MANUAL DETERGENT

- Our best grease-cutting formula for cleaning pots and pans. High-suds formula is gentle on hands, and pleasing fragrance enhances employee satisfaction.

POT AND PAN SOAK

- Alkaline formula dissolves greasy, baked-on soils for one-pass dishmachine results. Minimizing rewash reduces water and energy costs. Metal protection helps extend pot and pan life.
THREE-STEP APEX™ SERVICE CONSULTATION IS KEY TO CONTROLLING YOUR OPERATION

Key to Apex™ System is the personalized expertise of your dedicated and highly trained Ecolab representative.

1. You provide your cover count.

2. Apex™ tracks and trends your cover-to-rack ratio and provides personalized charts to help you understand your total cost of warewashing.

3. Your Ecolab representative will consult with you to implement procedures, training and other practical steps needed to control your operation.
**IMPROVED CONTROL. SUPERIOR PERFORMANCE.**

**APEX™ CONTROLLER**
Tracks and records data which downloads via wireless to your Ecolab representative’s tablet PC during regular service calls.
